

Professional Summary

Full-Stack Developer with 4 years of experience specializing in Python, Django, Next.js, and React.js. Proven track record building scalable, high-performance web applications and enterprise systems. Currently contributing to product development at **Ribos** (formerly Tegain), focusing on backend architecture, API-driven solutions, and performance optimizations. Over the last six months, actively leading the **frontend development of Talrop ERP**, enhancing user interfaces and optimizing performance using Next.js and React.js. Strong analytical thinker with meticulous attention to detail, experienced in designing optimized PostgreSQL schemas, implementing robust RESTful APIs, and collaborating closely with cross-functional teams to deliver seamless user experiences. Self-driven and adaptable professional who consistently delivers maintainable software solutions from concept through deployment.

Professional Experience

July 2023 – Present **Full Stack Developer**, Ribos (formerly Tegain) - Kochi, India

- Currently leading the frontend development of Talrop ERP using Next.js and React.js, focusing on performance optimization and improved UX
- Designed and implemented well-architected backend services, resulting in significant API performance improvements
- Developed comprehensive RESTful APIs with Django REST Framework to power core ERP functionality
- Implemented security best practices including JWT authentication and role-based access control
- Optimized database queries and implemented caching strategies, reducing server load and improving response times
- Collaborated with UX/UI designers to ensure a seamless user experience across the platform

August 2022 – July 2023 **Full Stack Web Developer Intern**, Talrop - Kochi, India

- Contributed to early development of Talrop ERP, later promoted to lead components of the project
- Built responsive UI components using React.js and Bootstrap 5 for the company's systems
- Participated in the full software development lifecycle from requirements gathering to deployment
- Implemented automated testing using Jest and Pytest, achieving high test coverage
- Transitioned from intern to full-time role after demonstrating strong technical capabilities

Jan 2022 – June 2022 **Backend Developer**, Steyp - India

- Developed and maintained backend services using Python and Django
- Created RESTful APIs to support client applications and third-party integrations
- Implemented database migrations and optimized query performance
- Collaborated with frontend developers to ensure seamless data flow between systems

Key Projects

Talrop Enterprise Resource Planning System (2022–Present)

- Leading both backend and frontend development for this flagship enterprise solution managing HR, finance, and project management functions
- Over the past six months, focused on modernizing and enhancing the frontend with Next.js, React Query, and Tailwind CSS for improved performance and scalability
- Built scalable and high-performance backend using Django REST Framework enabling complex business logic and data relationships
- Designed comprehensive database schema supporting multiple departments and business processes in a unified structure
- Integrated real-time notifications and reporting features using WebSockets and React Query
- Implemented CI/CD pipeline improving deployment reliability and speed
- Developed documentation and conducted knowledge transfer sessions for stakeholders

Steyp Learning Platform (2023)

- Architected and developed a microservices ecosystem using Django and FastAPI
- Implemented containerization with Docker and managed deployment with GitLab CI/CD pipelines
- Designed efficient inter-service communication protocols using message queues
- Integrated PostgreSQL for data persistence with optimized query performance

Technical Skills

Languages: Python, JavaScript, TypeScript, HTML5, CSS3, SQL

Frameworks & Libraries: Django, Django REST Framework, FastAPI, Next.js, React.js, React Native, Redux, Bootstrap 5, Tailwind CSS, jQuery

Databases: PostgreSQL, MySQL, Firebase Realtime Database

DevOps & Tools: Docker, GitLab CI/CD, Git, Jira, Postman, VS Code

Education

2020 – 2022 **Higher Secondary Education (HSE)**, Kerala State Board

- Computer Science

2019 **Secondary School Leaving Certificate (SSLC)**, Kerala State Board

Certifications

Full Stack Web Development - Steyp, 2023

Advanced Backend Development with Django - Steyp, 2023

Frontend Development with React.js - Steyp, 2023

DevOps Fundamentals - Steyp, 2023

Mobile Application Development with React Native - Steyp, 2023

Additional Information

Languages: Malayalam (Native), English (Professional)

Interests: Open-source contribution, Competitive programming, Technology blogs

Soft Skills: Problem-solving, Team collaboration, Time management, Communication
